

# Studio For Creative Technology

We're Building The Future of Digital Transformation

# 01

# About Us

We unite strategy, data, design  
& technology to enable growth.

# Who we are

Ztech is a digital consulting agency with a clear vision and over 09 years of passion

- Ztech is a small, flexible, fast-moving and skilled team, independently owned and profitable since its inception.
- Ztech combines experience in strategy, data science, interactive design, motion graphics, software engineering for web and mobile, analytics, social media and digital growth.
- Ztech is your data driven partner for the digital age.

# What we do

We transform data into value and business impact.

- ✓ Since inception, there has been one goal for Ztech — to work creatively, effectively and above all, differently from anything else in the marketplace.
- ✓ We develop solutions and experiences using technology in smart, interrelated ways that support brand and communication strategies.
- ✓ We work with open clients to clarify their stories and create tangible experiences that will set them apart from the competition and connect with their customers.
- ✓ We have extensive experience with mobile applications and data driven websites.

# Our Approach

## The principles which shape our work and how we collaborate

- We believe that data-based technology is the main driver of today's communication and culture.
- We see our responsibility to constantly push the boundaries of what can be done with digital technology.
- We aim to build long term relationships with our clients and partners based on transparency, collaboration and trust.
- We believe in creative freedom, curiosity and quality over quantity.
- We believe good products/services require good development.

# Our Values

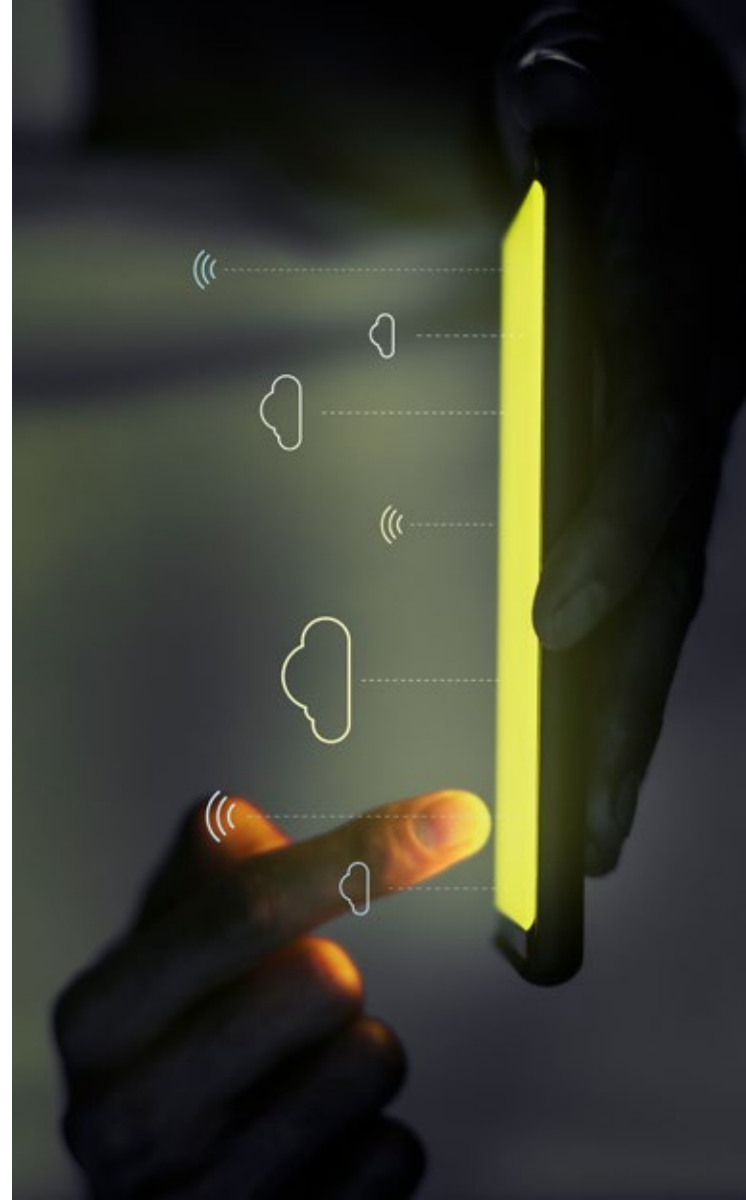

Our values define who we are. How we work and grow together.

- 01 We make great technology.
- 02 We are intolerant of intolerance.
- 03 We default to transparency, truth & trust.
- 04 We choose positivity & happiness.
- 05 We make time for reflection.
- 06 We keep everything we do professional.
- 07 We choose simple processes.
- 08 We support openness & interoperability.
- 09 We work smarter, not harder.
- 10 We work everywhere we want.
- 11 We give preference to autonomy.
- 12 We pursue personal growth.

# 02

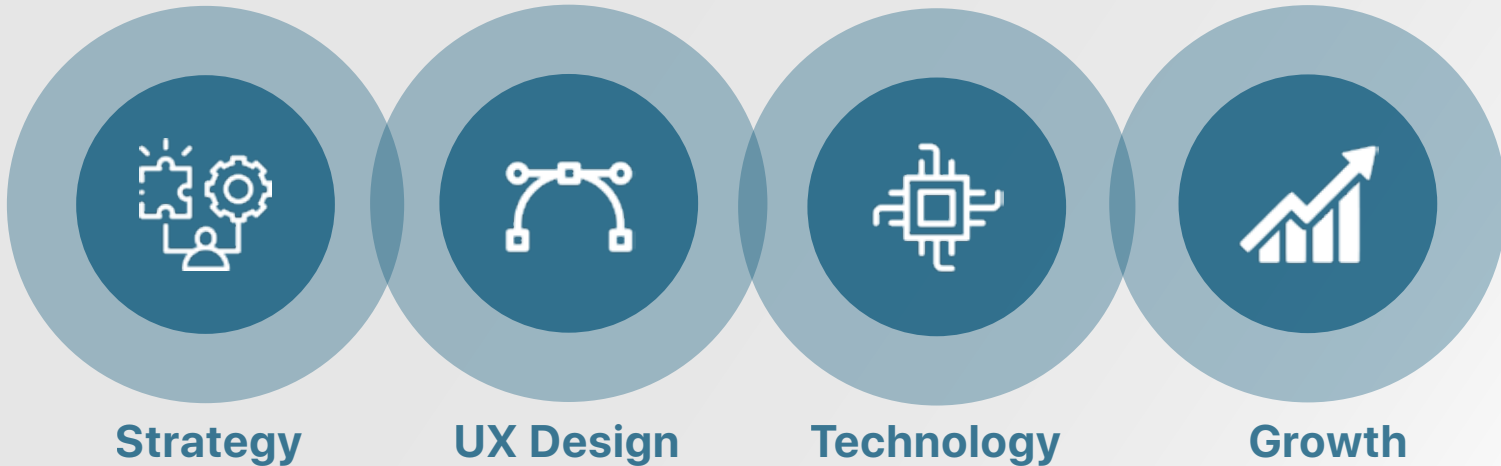

## Services

Everything you need to make  
a successful digital product,  
and nothing more.

# Business Fields
